

MOJAVE

AIR AND SPACE PORT

MAINTENANCE WORKER II

Description

Under supervision, performs a variety of semi-skilled work in the construction and maintenance of buildings, grounds and equipment at the Mojave Air and Space Port.

DISTINGUISHING CHARACTERISTICS:

The Airports Maintenance Worker II is the experienced level of the flexible classification series within the Mojave Air and Space Port Facilities Maintenance Department. This is an intermediate class between entry level and Maintenance Worker III. Promotion to the next higher level of Airports Maintenance Worker III is based upon acquiring the required training and experience, and recommendation of the Maintenance Supervisor.

Essential Functions:

Works within the airfield movement areas, checks buildings, equipment, and grounds to locate conditions indicating the need for repair and maintenance work

Makes building repairs involving plumbing, irrigation systems, painting, carpentry, mechanical, structural, flooring, and/or simple electrical work

Performs airfield maintenance with large commercial tractors and rotary equipment

Uses a variety of hand and power tools in the performance of work

Duties may include but are not limited to:

Operates a personal computer and/or mobile device, using a variety of software applications to complete work

Repairs furniture and equipment

Builds small structures

Mixes, pours, and assists in finishing concrete and asphalt

Operates light and/or heavy motorized equipment, digs ditches and lays pipe

Operates and maintains pumps

Maintains and repairs sprinklers, drip irrigation systems, and control valves

Installs irrigation systems

Performs minor brazing, soldering and minor welding
